Enrich

PROVEN RETURN ON INVESTMENT

- Provides flexibility to meet your customers' demands.
- Increase profitability of every unit, customer, product line, facility, region, and your company.
- Increase warranty collections, asset utilization, mechanic productivity, customer service, cash flow and more.
- Reduce back-office overhead through credit checking, accounts receivable reporting and bad debt write-offs.
- Enrich customers typically realize their return on investment in a few years.

Powered by IBM's most reliable and cost effective server, the **enrich** enterprise solution provides our customers with 24/7 real-time access to every function and all data required to be successful.

**The Enterprise
Solution for your
Lease & Rental
Business Needs**

REMOTE ACCESS CLOUD SOLUTION

Transform fixed IT costs into variable costs directly associated with the scale of your company. Remote Access is offered on a monthly subscription based on your active fleet count. Your data is instantly mirrored to a bank-grade security disaster recovery location, and our 24/7 help desk support, software upgrades, and server management are all included in the monthly fee.
